

Fade-out thinner

Übergang verdünnung

D112

Shelf life: 36 months
Pack: 0,5 l

Properties

Fade-out thinner D112 is a special mix of solvents made for hiding the edge-markings of the repaired surface in the places where the new topcoat overlaps the old. Fade out thinner D112 is a ready-to-use product, but also could be applied in a mix with the used topcoat (clear coat or 2K paint).

Usage tips

Fade-out thinner D112 must be applied only in the area of overlapping of the topcoat. When applied in a mix with the used topcoat, concentration of the topcoat must be decreased by addition of 100 vol % Fade-out thinner D112 with every next layer.
